

BALOGUN CHRISTOPHER SIMILEOLUWA

FULL-STACK WEB DEVELOPER

Abuja, Nigeria | GitHub: github.com/chriswebofficial

PROFESSIONAL SUMMARY

Creative and detail-oriented Full-Stack Web Developer with a National Diploma in Computer Science and practical experience building responsive, functional, and user-friendly web applications. Skilled in developing both frontend interfaces and backend systems, working with databases, APIs, authentication, and deployment. Experienced with modern web technologies including React, TypeScript, JavaScript, Tailwind CSS, Next.js, Node.js, Express.js, MongoDB, Git, and Vercel. Able to take a web project from concept and interface development through backend implementation, database integration, testing, and deployment.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, TypeScript, React.js, Next.js, Tailwind CSS, Vite, Framer Motion, AOS

Backend: Node.js, Express.js, REST APIs, authentication and authorization, server-side development

Database: MongoDB, Mongoose, database design and integration, CRUD operations

Tools & Deployment: Git, GitHub, Vercel, Visual Studio Code, npm, XAMPP, Firebase

Other: Responsive web design, UI implementation, website deployment, debugging, problem-solving

PROFESSIONAL EXPERIENCE

Full-Stack Web Developer / Freelance Projects

Independent Projects & Client Work

- Designed and developed responsive websites and web applications for different project requirements.
- Built complete web applications involving both frontend interfaces and backend functionality.
- Developed responsive user interfaces using React, TypeScript, JavaScript, and Tailwind CSS.
- Implemented backend functionality, APIs, authentication, database operations, and server-side logic.
- Integrated MongoDB and other services into web applications where required.
- Used Git and GitHub for source-code management and project version control.
- Deployed web applications using platforms such as Vercel.
- Debugged and optimized applications to improve functionality, responsiveness, and user experience.
- Worked independently from project planning through development, testing, and deployment.
- Communicated with clients and adapted projects according to their requirements.

SELECTED PROJECTS

VIC3 PRODUCTIONS LTD — Company Website & Admin System

Technologies: Next.js, TypeScript, Tailwind CSS, Firebase, Firestore, Cloudinary, Vercel

- Developed a company showcase website and administrative system.
- Built public-facing pages for company information, projects, team members, and content.
- Integrated Firebase authentication and Firestore for data management.
- Implemented content management for messages, posts, team information, and company information.
- Integrated Cloudinary for media uploads and deployed the project with Vercel.

Live: vic3-productions-ltd-red.vercel.app

FONO — E-Commerce Web Application

Technologies: React, TypeScript, Tailwind CSS, Vite

- Developed a responsive e-commerce website for phones and accessories.
- Created product browsing and search functionality and implemented shopping-cart interactions.
- Built a responsive interface for desktop and mobile users and deployed the project with Vercel.

Live: fono.vercel.app

Luise Makeup Place — Business Website

Technologies: React, TypeScript, Tailwind CSS, Vite

- Developed a responsive business website for a makeup brand.
- Created service and business information sections and implemented interactive booking/contact functionality.
- Focused on a clean, responsive, user-friendly experience and deployed the project online.

Live: luise-makeup-place.vercel.app

Next-Gen Drones — Web Application

Technologies: Next.js, MongoDB, Mongoose, Tailwind CSS

- Developed a drone-related web application concept.
- Built frontend pages with Next.js and Tailwind CSS and integrated MongoDB for data storage.
- Used Mongoose for database interaction and connected application functionality with backend/database services.

EDUCATION

The Federal Polytechnic, Bida, Niger State

Department of Software and Web Development — 2025/2026

National Diploma (ND) in Computer Science

Completed National Diploma in Computer Science.

Aptech Computer Education

Additional computer and software development training undertaken to improve technical knowledge and practical skills.

CORE COMPETENCIES

Full-Stack Web Development • Frontend Development • Backend Development • Database Integration • API Development & Integration • Responsive Web Development • Web Application Development • Git & Version Control • Website Deployment • Problem Solving • Debugging & Troubleshooting • Client Communication

PERSONAL STRENGTHS

Strong attention to detail • Fast learner • Creative problem-solving • Good communication • Ability to work independently and as part of a team • Willingness to learn new technologies • Ability to manage projects and meet deadlines
